

BLAIR COUNTY CHRISTIAN SCHOOL

"...that in all things He might have the preeminence." Colossians 1:18b

Dear Parents,

Blair County Christian School is making plans for the 2011/2012 school year. We are asking you, our school parents and community, if there is a need for early morning child care and/or extended child care at the end of the school day. If you or someone you know, who might be planning to register his child/children for the 2011/2012 school year, would be interested in using one of these services, please contact the school office at 696-3702 during regular school hours.

Along with the plans for the next school year, Blair County Christian School is also wondering if you have a need for summer child care. If you are interested in the summer child care program, which includes ample play time, snacks, crafts, and group activities, please contact the school office.

Thank you for considering Blair County Christian in helping to minister and assist you with your needs.
